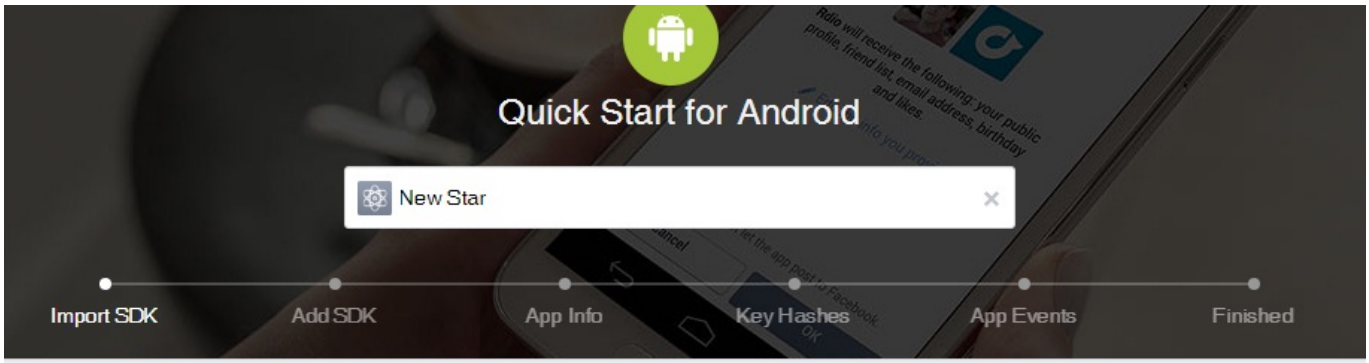
[Download Latest Facebook Sdk For Android Studio]



Add Facebook SDK to Your Project

To use Facebook SDK in a project, add it as a build dependency and import it. If you are starting a new project, follow all the steps below. To add Facebook SDK to an existing project, start with step 3.

1. Go to **Android Studio | New Project | Minimum SDK**
2. Select "**API 15: Android 4.0.3**" or higher and create your new project.
3. In your project, open

your_app | Gradle Scripts | build.gradle

4. Add the Maven Central Repository to **build.gradle** before **dependencies:**

```
repositories {
        mavenCentral()
    }
```

5. Add **compile 'com.facebook.android:facebook-android-sdk:[4,5)'** to your **build.gradle** dependencies.
6. Build your project.
7. Import Facebook SDK into your app:
